SOLUTIONS FOR SUCCESS

Rocket Consulting help a wide range of companies from different sectors, of varying sizes, complexity and operational requirements to understand and achieve their business goals. This cross-sector experience allows us to transfer and evolve best practices and ways of working from otherwise unrelated business areas. Our approach ensures the right engagement model for each client. The solutions we deliver demonstrate the importance of the appropriate use of technology and SAP™ functionality for the particular business needs of each customer.

Rocket's additional project services help ensure your implementation runs smoothly. These services include:

- ✓ Project Management
- ✓ Change Management
- ✓ Testing & Test Management
- ✓ Training & Training Management
- ✓ Project Reviews

ROCKET SCIENCE AND SAP

Rocket Consulting work with SAP applications bringing a wealth of expertise to support your project from start to finish. As a recognised leader in providing collaborative business solutions for all types of industries and for every major market, SAP is a global provider of mobile computing, wireless data collection and RFID systems with over three decades of industry experience.

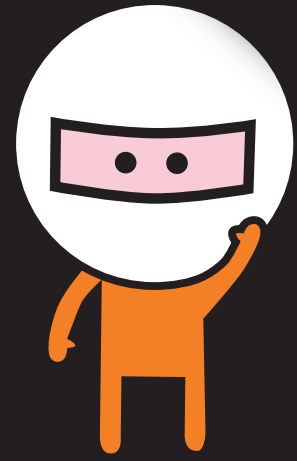

The powerful combination of Rocket Consulting and the SAP Business Suite allows employees, customers and business partners to work together successfully anywhere, anytime – unlocking the value of information, improving supply chain efficiencies and building strong customer and supplier relationships.

“Rocket Consulting coordinated and quickly established the Warehouse and Task & Resource Management blueprint within very tight deadlines. We could not have gone live with the full SAP Warehouse and Task & Resource Management scope without their assistance” **Bodyshop**

OUR MISSION:

'TO WORK IN PARTNERSHIP WITH OUR CLIENTS, RADICALLY IMPROVING THEIR OPERATIONAL EXCELLENCE, BUSINESS PROCESS THROUGHPUT AND RESOURCE EFFICIENCY.

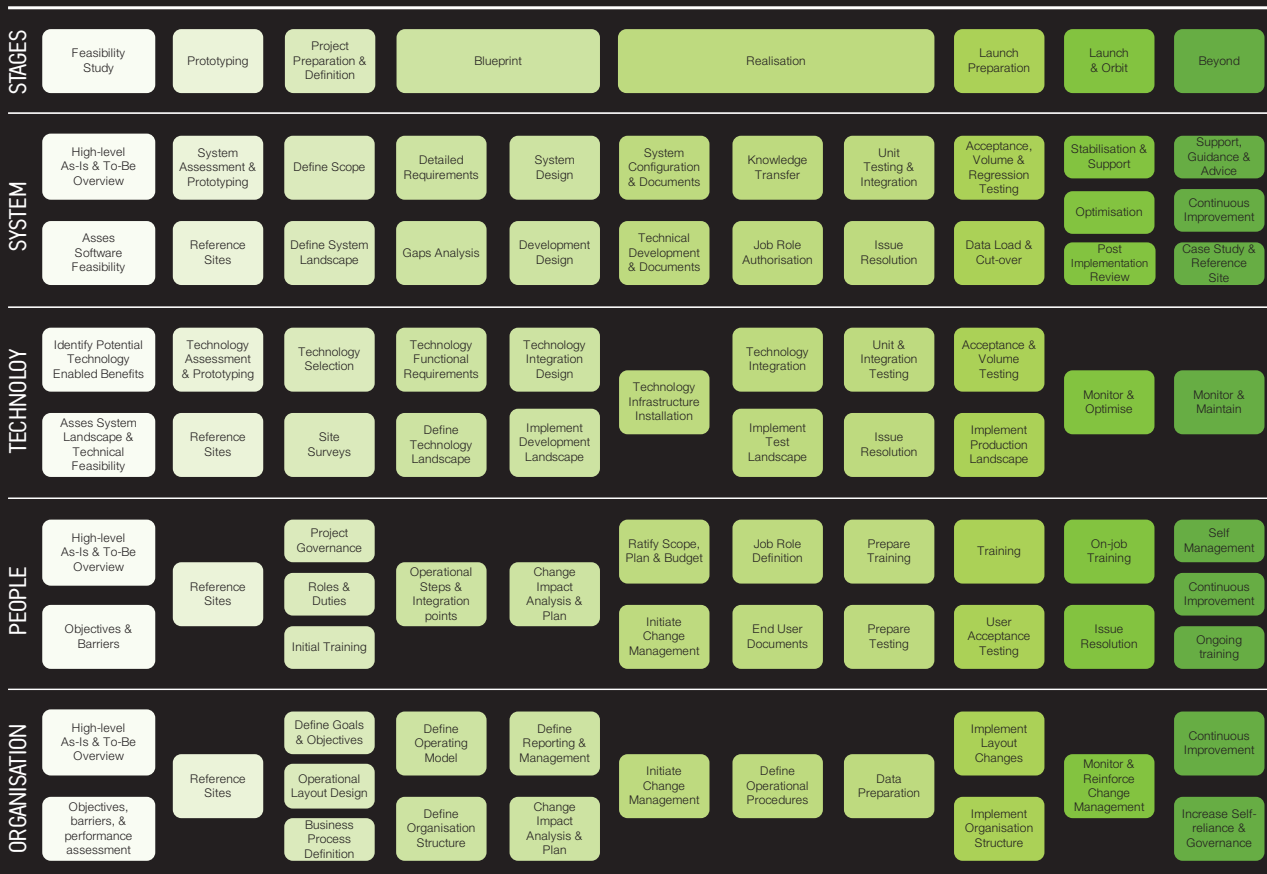

TO ENABLE BUSINESS SUCCESS BY DELIVERING POWERFUL SUPPLY CHAIN AND WAREHOUSE MANAGEMENT SOLUTIONS THAT INCORPORATE SAP, TECHNOLOGY AND BEST PRACTICE.'

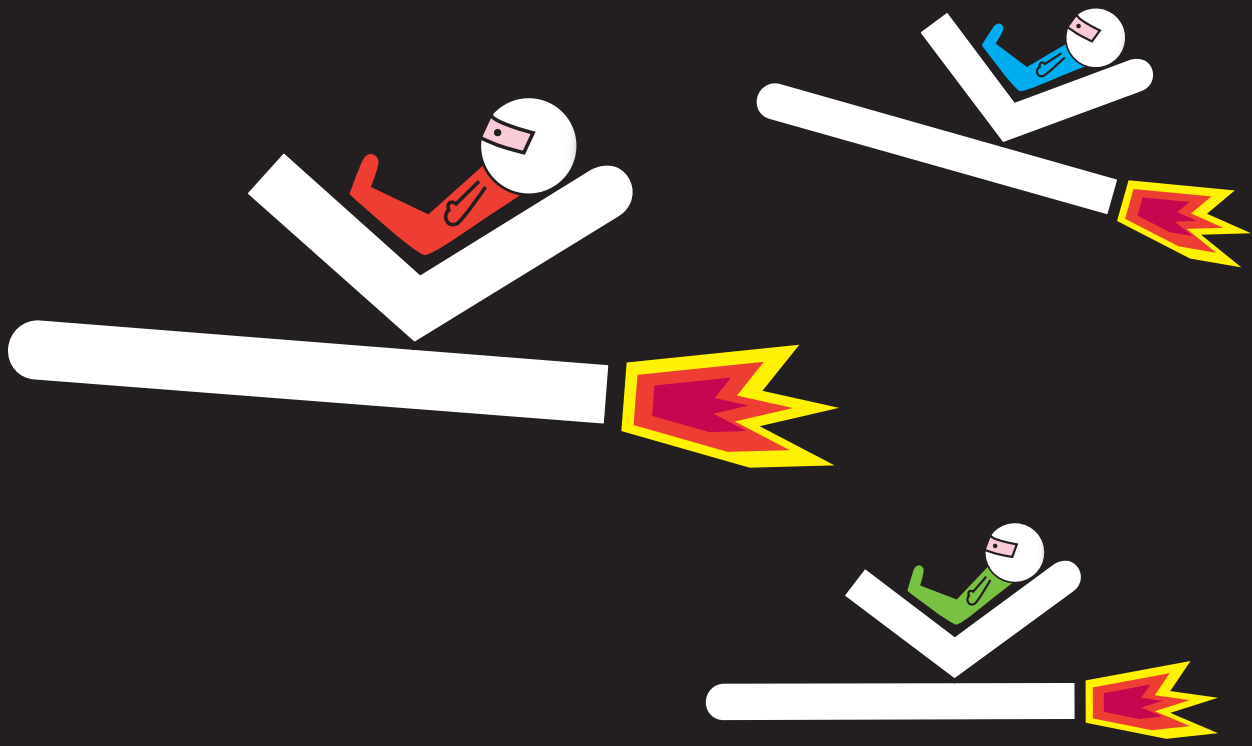

REACHING FOR THE STARS

Rocket Consulting work with you to streamline your business operations, create effective supply chains and boost warehouse efficiency, accuracy and throughput. We bring fresh thinking, demonstrable experience and an innovative holistic approach to your projects.

With a proven track record of successfully delivering practical and effective results, Rocket Consulting can help you achieve your business goals and take you to new frontiers of teamwork, understanding and excellence, creating a platform for your business growth and continuous improvement.

"Rocket consultants worked with Laithwaites from the initial design, through implementation, testing, go live and finally support. During this time they demonstrated an exceptional level of SAP knowledge, business understanding and commitment to the project" **Laithwaites**

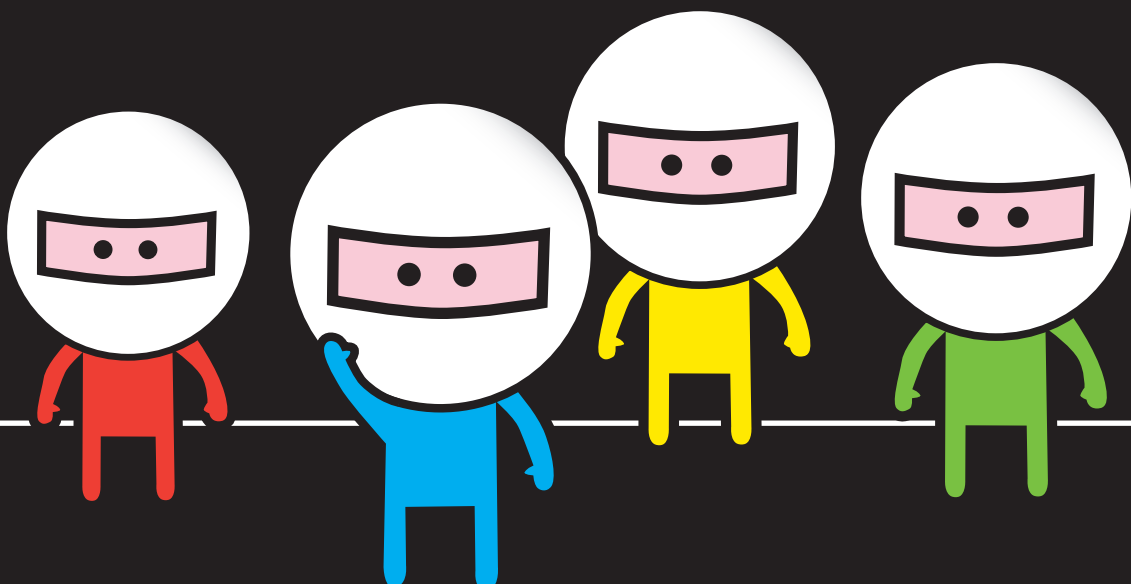

HELPING YOUR BUSINESS TO FLY

Working across the entire project from evaluation, proof of concept and design, to implementation and beyond, we combine our experienced consultants and proven project approach with your business experts to ensure success.

Collaborating with you to understand your goals and strategies, we introduce our flexible methodologies to your business. This ensures consistently high quality deliverables that consider people, organisation, technology and systems. Rocket Consulting will work in partnership with you to make sure your business really takes off.

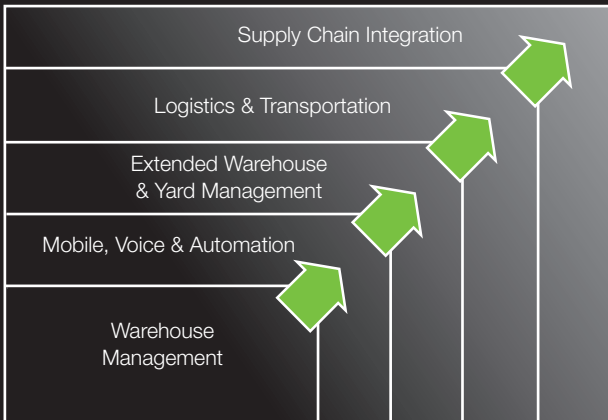

Rocket Consulting continually maintains its position at the forefront of the SAP software capability and complementary technology.

“The SAP and integrated application experience provided by the Rocket Consulting team, combined with a consistently flexible and professional approach, ensured successful deployment of a number of Warehouse solutions.” **Superquinn**

THE RIGHT TEAM ON THE GROUND

As adaptive experts, Rocket Consulting utilises SAP, best practices and technology to optimise supply chains and warehouse operations. We deliver practical and optimal solutions using our project, technical and operational skills to provide consultancy services and turnkey solutions that add value across industry.

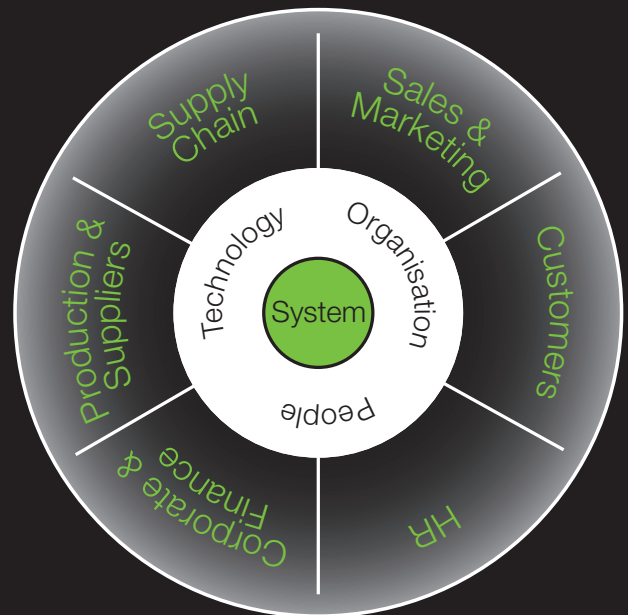

“Rocket has helped transform our operation, introducing efficient material flows and effective working practices that have allowed us to significantly increase throughput, improve stock and picking accuracy, and further improve on customer service.” **Chanel**

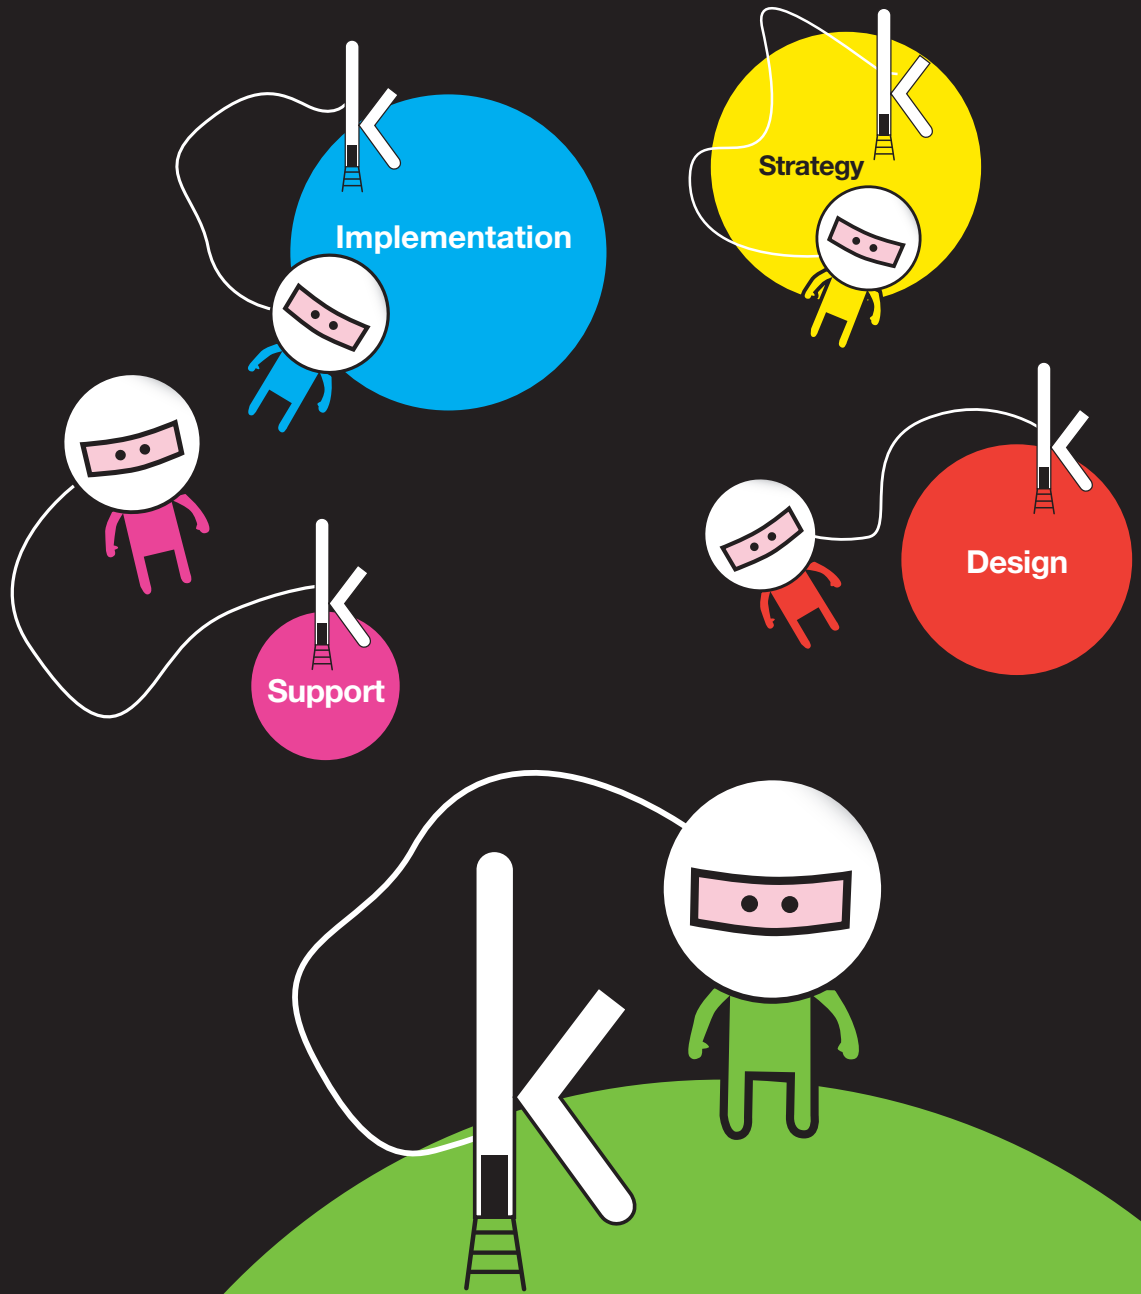

BOLDLY GOING TO NEW DIMENSIONS

We are dedicated to a process of continual improvement and to the goal of constantly evolving our ideas, methodologies and knowledge to meet new challenges and opportunities. Backed by an ongoing Research & Development investment programme, we have created a comprehensive suite of Rocket Packs and Toolkits to complement and extend the capabilities of the SAP software. Accelerating bespoke development and the integration of technology and automation equipment.

- ✓ Warehouse Automation
- ✓ Mobile Data Entry & Scanning (RF)
- ✓ Voice Directed Operations
- ✓ RF Identification (RFID)

Offering innovative thinking we take an all-round consideration to ensure a holistic view of your operational requirements. We have a passion for customer service and are fully committed to delivering the highest quality standards with the ultimate aim of giving you the tools, support and confidence to accomplish the mission you have set yourself.
